About Second Chance Recycling

Second Chance Recycling is a local leader in community recycling initiatives, with a focus on mattress recycling.

Dismantling nearly 250,000 mattresses, Second Chance Recycling has diverted over 10.5 million pounds of mattress material from landfills.

Second Chance Recycling is a social enterprise of Emerge Community Development with a mission to work with lower-income individuals to help them achieve greater self-sufficiency through employment training, support services and education.

The Second Chance Recycling program is supported in part by:
