HENNEPIN COUNTY

REGIONAL RAILROAD AUTHORITY

July 17, 2017

The Honorable Members of the Hennepin County Regional Railroad Authority Board:

Minnesota Statutes require all governmental agencies to issue an annual report on its financial position and activity prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants or the state auditor. Pursuant to that requirement, we hereby issue the comprehensive annual financial report of the Hennepin County Regional Railroad Authority (HCRRA) for the fiscal year ended December 31, 2016.

Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal control established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

RSM US LLP, Certified Public Accountants, has issued an unmodified (“clean”) opinion on HCRRA financial statements for the year ended December 31, 2016. The independent auditor’s report is located at the front of the financial section of this report.

Management’s discussion and analysis (MD&A) immediately follows the independent auditor’s report and provides a narrative introduction, overview, and analysis of the basic financial statements. MD&A complements this letter of transmittal and should be read in conjunction with the letter.

Profile of the Government

The HCRRA was established in 1980 as a political subdivision and local government unit of Minnesota. It was established for the purpose of preservation, improvement, and implementation of local rail service in accordance with the powers and authorities granted in Laws of Minnesota Chapter 616. The HCRRA advises and participates with the Metropolitan Council Metro Transit Division, the Minnesota Department of Transportation, and the Counties Transit Improvement Board (CTIB) in the development of rail transit in Hennepin County. Together, Hennepin, Anoka, Dakota, Ramsey, and Washington counties comprise CTIB. The Minnesota Legislature authorized this joint powers board to impose a 0.25% sales and use tax, and an excise tax on sales of motor vehicles. The taxes are used to provide grants to fund capital improvements and some operating costs of the transit system.

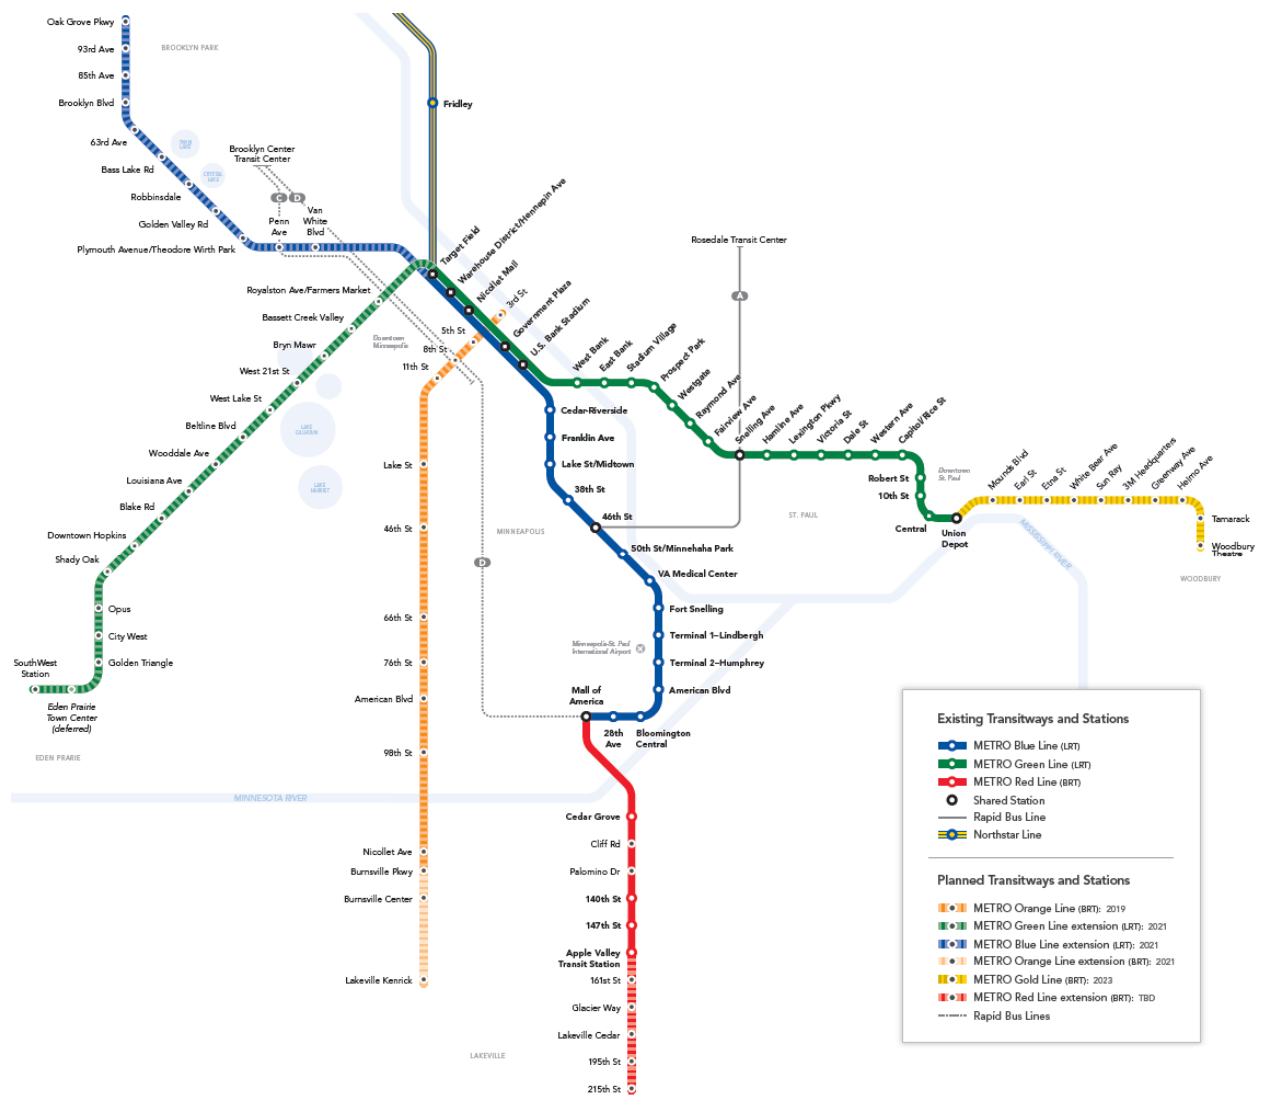

Although it is a legally separate entity, the HCRRA is in substance part of the operations of Hennepin County. Therefore, the HCRRA’s activity is combined with financial information of Hennepin County and reported as a special revenue fund within the County’s Comprehensive Annual Financial Report.

Hennepin County Regional Railroad Authority
701 Fourth Avenue South, Suite 400, Minneapolis, MN 55415
hennepin.us/hcrra

The HCRRA Board, which includes the seven members of the Hennepin County Board of Commissioners, is responsible, among other things, for adopting the annual budget. Budgets are adopted on a basis consistent with GAAP. Beginning in approximately May of each year a budget is prepared and includes information on the past year, current year estimates, and requested appropriations. The Board legally enacts the budget by passage of a resolution no later than December 31. A budget to actual comparison for the general fund is presented in the Required Supplementary Information section of this report.

Below is a map of the METRO system. The projects that the HCRRA has participated in or been financially involved in are shown in the map and some are described in more detail in the following pages.

METRO System Map provided by Metro Transit

METRO Blue Line – Light Rail Transit

The METRO Blue Line opened in 2004. The current 19-station line provides 12 miles of light rail transit between the Mall of America in Bloomington and Target Field Station in downtown Minneapolis. The line is served by two park and ride lots that provide more than 2,600 parking spaces to commuters. Ridership in 2016 totaled 10.3 million, and the route had an average weekday ridership of 30,337. The Target Field Station provides a direct connection to the Northstar Commuter Rail Line. Three-car trains are used on weekdays, as well as for Minnesota Twins and Vikings games.

Metro Transit operates the light rail, commuter rail, and most of the buses in the Twin Cities, and received the American Public Transportation Association's 2016 "System of the Year" award. The METRO Blue Line accounted for about 12.4% of Metro Transit's total ridership in 2016. The METRO Blue Line operates with a fleet of 39 vehicles.

METRO Green Line – Light Rail Transit

The METRO Green Line is 9.8 miles of light rail transit between downtown St. Paul and downtown Minneapolis. This line opened in 2014 with 18 stations, as well as five stations shared with the METRO Blue Line. It links five major centers of activity in the Twin Cities region – downtown Minneapolis, the University of Minnesota, the Midway area, the State Capitol complex and downtown St. Paul. It connects to the METRO Blue Line at the US Bank Stadium Station. For the first full-year of operation in 2016, total ridership was 12.7 million with average weekday ridership of 39,386. METRO Green

Line ridership in 2016 was 15.4% of Metro Transit's annual total ridership. The Metropolitan Council was responsible for the design, construction and operations of the METRO Green Line. A total of 47 Light Rail Vehicles are assigned to the Green Line.

Target Field Station Regional Multimodal Facility

Target Field Station involved development of a site adjacent to the current downtown Minneapolis Target Field Stadium to provide connections between bus routes, the Cedar Lake Bike Trail, and the existing and future light rail and commuter rail lines. The station opened in 2014, with an initial focus on light rail transit enhancements relating to the METRO Blue and Green Lines.

The facility is designed to accommodate future light rail transit services to Eden Prairie (METRO Green Line Extension) and Brooklyn Park (METRO Blue Line Extension.) The Station provides improved pedestrian and bicycle access to Target Field from the North Loop neighborhood, and has safe, spacious queueing areas for light rail passengers after events at Target Field. Public events at Target Field Station are scheduled through the

Minnesota Twins. In 2016, over 70 events were programmed, in addition to activities for the Twins 81 home games. More than 20 organizations expressed interest in using Target Field Station again for their events.

Target Field Station is a catalyst for development in the North Loop Area. District 600 Apartments, with 78 units, and the Inbound Brewery opened in 2016. Construction has begun on a mixed-use 143-unit building with 14,000 square feet of retail on 6th Avenue North.

Northstar Commuter Rail Line

Northstar Commuter Rail service between Big Lake and downtown Minneapolis is on a 40-mile segment of BNSF Railway along Highways 10 and 47. This service began in 2009. The Northstar stations are located in Big Lake, Elk River, Ramsey, Anoka, Coon Rapids, Fridley, and in downtown Minneapolis where Target Field Station provides a direct connection to the METRO Blue Line.

Northstar rail service has five peak-direction trips on weekdays, with one reverse-commute trip. Three round trips are scheduled for Saturday and Sunday. Northstar serves all Minnesota Twins and Vikings home games as well as select special events in downtown. In 2016 the Northstar Line carried 711,000 passengers, with an average weekday ridership of 2,500.

Additional Projects

The HCRRA also participates in the planning and design of other projects, including:

- **METRO Green Line Extension (Southwest Corridor) – Light Rail Transit**
The METRO Green Line Extension is a planned 14.5-mile light rail transit line between the existing Southwest Station in Eden Prairie and downtown Minneapolis. When built, the line will be combined with the METRO Green Line, to create a continuous service from Eden Prairie to downtown St. Paul. In 2016, the Final Environmental Impact Statement was published and received approval from the Federal Transit Administration (FTA) in July when the Record of Decision was released. The project received FTA approval to enter the Engineering phase in December. The final design plans are near completion and bid packages are being assembled for advertisement.

- **METRO Blue Line Extension– Light Rail Transit**
The METRO Blue Line Extension (Bottineau Corridor) is a 13-mile, 11 station transitway corridor extending from the existing Target Field Station in downtown Minneapolis through North Minneapolis, Golden Valley, Robbinsdale, Crystal, and Brooklyn Park. In 2016, the Final Environmental Impact Statement was published, and received approval from the FTA in September when the Record of Decision was released. The project is scheduled to enter the Engineering phase early in 2017.

- **METRO Orange Line – Bus Rapid Transit**
The METRO Orange Line is a 17-mile planned highway Bus Rapid Transit (BRT) line that will connect Minneapolis, Richfield, Bloomington, and Burnsville along Interstate 35W. The Orange Line will provide frequent, all-day service in both directions, seven days a week. The \$150 million project is scheduled to open in 2019. In 2016, the project completed all state and federally required environmental analysis. The City of Minneapolis approved municipal consent for two components of the project: the I-35W Transit/Access Project and the 12th Street Ramp. New funding of \$39.6 million was secured, with 81% of local funding committed. The project submitted information to the FTA Administration for consideration in upcoming federal funding recommendations.

- **Red Rock Corridor – Bus Rapid Transit**
The Red Rock Corridor transit proposals have focused on a transit corridor from Hastings through St. Paul, and providing transit connections to Minneapolis. Activities in 2016 included the completion and approval of an Implementation Plan which calls for a phased approach to increase transit service and ridership between Cottage Grove and Downtown Saint Paul. Also, the Red Rock Corridor Joint Powers Agreement is under review. Hennepin County has been part of this agreement since 1998.

- **Northern Lights Express – Minneapolis to Duluth/Superior Passenger Rail**
The HCRRA, in partnership with the regional railroad authorities for St. Louis and Lake County, Isanti County, Pine County; and the Mille Lacs Band of Ojibwe, the cities of Duluth and Minneapolis, and the Minnesota Department of Transportation (MnDOT) have been studying the potential for the intercity passenger rail between Minneapolis and Duluth/Superior. During 2016, work continued on Preliminary Engineering and the Tier 2 Environmental Review. The environmental study is scheduled for completion and public review in 2017.

Interim Use of Properties Acquired for Future Projects

The HCRRA currently owns 55 miles of rail corridor; 10 sites suitable for future park and ride lots or stations; and 2 railroad depots; for a total of 83 acres. Although acquired for future transportation needs, recreational trails have been constructed on these corridors as an interim use.

Economic and Financial Condition

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the HCRRA operates.

Local economy. Hennepin County, the geographic area in which the HCRRA is established, has longstanding characteristics of strength and diversity in comparison to outstate, regional and even the national economy as shown in measurements of income and employment. Healthcare, medical device manufacturing, retail sales, financial services and insurance, high tech, and food processing are significant economic sectors providing a strong employment and wage base in the County. Many large international companies maintain their headquarters in Hennepin County. At year-end 2016, the County unemployment rate of 3.4% was similar to the previous year's rate of 3.3%. Again in 2016, the County unemployment rate remained lower than the State rate of 3.9% and the national rate of 4.9%.

Long-term Financial Planning. The overall state economic environment relating to the 2017 budget process was modestly stronger compared to the conditions in 2016. The February 2017 State of Minnesota's budget and economic forecast predicts a \$1.65 billion surplus for the biennium ending on June 30, 2019, an increase of \$250 million from the November 2016 forecast. The February 2017 forecast cites improved U.S. economic growth as a factor. Even so, uncertainty remains based on which proposed U.S. economic and fiscal policy changes will be enacted and their resulting economic impact. The state economic forecast indicates that consumer spending is expected to remain the primary contributor to growth in the economy. In this outlook, real consumer spending is expected to grow 3.2 percent in 2018, compared to 2.5 percent in the November 2016 outlook.

The preparation of this report could not have been accomplished without the efficient and dedicated services of the entire financial staff of Hennepin County. We would like to express our appreciation to all staff who assisted and contributed to the preparation of this report. Credit also must be given to the HCRRA Board for their support for maintaining the highest standards of professionalism in the management of HCRRA finances.

Respectfully submitted,

Independent Auditor's Report

Hennepin County Regional Railroad Authority
Hennepin County, Minnesota

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and the major funds of Hennepin County Regional Railroad Authority (HCRRA), a component unit of Hennepin County, Minnesota, as of and for the year ended December 31, 2016, and the related notes to the financial statements, which collectively comprise HCRRA's basic financial statements, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and the major funds of HCRRA as of December 31, 2016, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America for state and local governments require that the management's discussion and analysis, budgetary comparison information, and notes to the required supplementary information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise HCRRA's basic financial statements. The accompanying supplementary information, as listed in the table of contents, and the other information, such as the introductory and statistical sections, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The 2016 supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements, or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the 2016 supplementary information is fairly stated, in all material respects, in relation to the 2016 basic financial statements taken as a whole.

We have also previously audited, in accordance with auditing standards generally accepted in the United States of America, HCRRA's 2015 basic financial statements (not presented herein) and have issued our report dated July 22, 2016, which contained unmodified opinions on the respective financial statements of the governmental activities and the major funds. The accompanying supplementary information, as listed in the table of contents, as of and for the year ended December 31, 2015, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the 2015 basic financial statements. The accompanying supplementary information has been subjected to the auditing procedures applied in the audit of the 2015 basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare those financial statements, or to those financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the 2015 supplementary information is fairly stated, in all material respects, in relation to the 2015 basic financial statements taken as a whole.

The introductory section and statistical section, as listed in the table of contents, have not been subjected to the auditing procedures applied to the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

RSM US LLP

Minneapolis, Minnesota

Management's Discussion and Analysis

This discussion and analysis is intended to provide financial statement readers with a financial overview and narrative analysis of the financial position and activities of the Hennepin County Regional Railroad Authority (HCRRA), a component unit of Hennepin County (the County) for the year ended December 31, 2016. This information should be considered in conjunction with the information contained in the financial statements, which follow this section.

FINANCIAL HIGHLIGHTS

Government-Wide

- At December 31, 2016, the assets and deferred outflows of resources of the HCRRA exceeded its liabilities by \$44,244,653. Of the total net position, \$37,783,981 was the net investment in capital assets, and \$189,324 was restricted for debt service. The remainder consisted of unrestricted net position of \$6,271,348.
- HCRRA total net position, as reported in the Statement of Activities, increased by \$5,436,373 during 2016. The increase in net position is primarily related to the Southwest Corridor project progressing slower than expected.

Fund Level

- At the end of the fiscal year, the HCRRA's governmental funds reported total ending fund balances of \$39,344,518, an increase of \$3,948,559 from the prior year balance of \$35,395,959. The increase in fund balance is primarily related to the Southwest Corridor project progressing slower than expected.
- Total fund balance for the General Fund was \$39,047,444, or approximately 159% of total general fund expenditures for the year ended December 31, 2016, compared to \$35,090,471 and 147% for 2015.

Long-Term Debt

- The HCRRA's total long term debt decreased \$1,613,334 in 2016, primarily due to the scheduled principal payment.

OVERVIEW OF THE FINANCIAL STATEMENTS

Management's discussion and analysis is intended to serve as an introduction to the HCRRA basic financial statements, which are comprised of two components: 1) combined government-wide and fund financial statements, and 2) notes to the basic financial statements. This report also contains other supplementary information in addition to the basic financial statements.

Government-wide Financial Statements

The *government-wide financial statements* are designed to provide readers with a broad overview of HCRRA finances, in a manner similar to a private-sector business. The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information about the

OVERVIEW OF THE FINANCIAL STATEMENTS – CONTINUED

Government-wide Financial Statements – continued

HCRRA as a whole using the *economic resources measurement focus* and the *accrual basis of accounting*. The economic resources measurement focus results in the reporting of all inflows, outflows, and balances affecting or reflecting HCRRA net position. Under the accrual basis of accounting, revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. There are two government-wide statements.

- *The Statement of Net Position* presents the HCRRA's assets and deferred outflows of resources, which are equal to the reported liabilities and *net position*. Over time, increases or decreases in net position may serve as an indicator of whether the financial position of the HCRRA is improving or deteriorating.
- *The Statement of Activities* presents information showing how the HCRRA net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will result in cash flows in future fiscal periods (e.g. uncollected taxes).

In both statements, HCRRA activities are reported as *governmental activities*, which are defined as functions that are principally supported by taxes and intergovernmental revenues.

Fund Financial Statements

The fund financial statements provide detailed information about the HCRRA major funds. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. HCRRA activity is reported in two major governmental funds, the General Fund, and the Debt Service Fund. Governmental funds are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. This approach is known as using the flow of current financial resources measurement focus and the modified accrual basis of accounting. The fund statements provide a detailed short-term view of HCRRA finances that assists in determining whether there will be adequate financial resources available to meet current needs.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the HCRRA's near-term financing decisions. Both the governmental funds balance sheets and the governmental funds statements of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds and governmental activities*. The reconciliations are presented in the adjustments column in each of the basic financial statements.

Notes to the Basic Financial Statements

The Notes to the Basic Financial Statements provide additional information that is essential to a full understanding of the data provided in the basic financial statements.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net Position

As noted earlier, net position may serve as an indicator of a government's financial position. In the case of the HCRRA, assets and deferred outflows of resources exceeded liabilities by \$44,244,653 at December 31, 2016. The largest portion of HCRRA net position, \$37,783,981, reflects its net investment in capital assets (land - including rail corridor and buildings). The HCRRA uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. An additional portion of the HCRRA's net position, \$189,324, represents resources that are subject to external restrictions on how they may be used. The remainder consists of unrestricted net position of \$6,271,348.

Summary of Net Position

	2016	2015
Current assets	\$ 40,375,125	\$ 41,136,206
Noncurrent assets:		
Capital assets	37,783,981	37,825,785
Total assets	78,159,106	78,961,991
 Deferred Outflows of Resources	 1,332,112	 1,419,703
 Current liabilities	 2,748,357	 7,401,872
Noncurrent liabilities	32,498,208	34,171,542
Total liabilities	35,246,565	41,573,414
 Net investment in capital assets	 37,783,981	 37,825,785
Restricted	189,324	193,863
Unrestricted	6,271,348	788,632
Total net position	\$ 44,244,653	\$ 38,808,280

Changes in Net Position

As shown in the table below, HCRRA net position increased by \$5,436,373 during 2016. The increase in net position is primarily related to the Southwest Corridor project progressing slower than expected.

Changes in Net Position

	Governmental Activities	
	2016	2015
Revenues:		
Program revenues:		
Charges for services	\$ 768,950	\$ 685,494
Operating grants and contributions	521,706	1,867,334
General revenues:		
Property taxes	29,916,050	27,125,736
Investment earnings	169,464	281,045
Total revenues	31,376,170	29,959,609
Expenses:		
HCRRA	24,579,915	25,816,704
Interest on long-term debt	1,359,882	1,391,441
Total expenses	25,939,797	27,208,145
Change in net position	5,436,373	2,751,464
Net position - beginning	38,808,280	36,056,816
Net position - ending	\$ 44,244,653	\$ 38,808,280

FUND FINANCIAL ANALYSIS

Changes in Fund Balance

The focus of the *governmental funds* is to provide information on near-term inflows, near-term outflows, and balances of net resources. At the end of the fiscal year, the HCRRA's governmental funds reported total ending fund balances of \$39,344,518, an increase of \$3,948,559 from the prior year. The increase in fund balance is primarily related to the Southwest Corridor project progressing slower than expected. Of the ending fund balance, \$39,047,444 constitutes General Fund total fund balance, which may be used to meet the HCRRA's ongoing obligations in accordance with contractual agreements and fiscal policies. The remainder of fund balance is restricted for the payment of debt service.

Budgetary Highlights

At year-end, actual General Fund expenditures of \$24,538,111 were lower than the final \$59,923,389 budget. Contractual services expenditures were \$33,801,198 less than budgeted due to the Southwest Corridor project progressing slower than expected.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

HCRRA capital assets as of December 31, 2016 total \$37,783,981, net of accumulated depreciation. The investment in capital assets consists of land (including rail corridor) and buildings. The HCRRA's net investment in capital assets decreased \$41,804 from the prior year's balance, which was due to additional depreciation during 2016. Additional information on HCRRA capital assets can be found in Note 4 on page 26 of this report.

Debt administration

At the end of the current fiscal year, the HCRRA had total long-term levy supported bonds outstanding of \$34,108,208 (including unamortized premium).

The HCRRA's credit ratings on outstanding bonds as of December 31, 2016 were:

Standard and Poor's Ratings Services	AAA
Fitch Ratings	AAA
Moody's Rating	Aaa

Additional information on HCRRA long-term debt can be found in Note 5 on page 26 of this report.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The 2017 General Fund budget is \$33,685,404 more than the final 2016 budget. In 2017, work will continue on several high priority projects. The General Fund is budgeting \$44,000,000 for the Bottineau Corridor, \$33,989,000 for the Southwest Corridor, and \$7,200,000 for the Midtown Greenway Corridor Bridges.

The Debt Service Fund budget for 2017 was approved at \$6,903,000, an increase of \$4,013,500 over the final 2016 budget, as payments are expected to increase significantly after the issuance of new bonds in 2017.

REQUESTS FOR INFORMATION

This financial report is designed to provide an overview for those interested in the HCRRA's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Hennepin County Regional Railroad Authority, 701 Fourth Avenue South, Suite 400, Minneapolis, MN 55415.

Hennepin County Regional Railroad Authority
A Component Unit of Hennepin County, Minnesota
Notes to the Basic Financial Statements
December 31, 2016

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Financial Reporting Entity

The Hennepin County Regional Railroad Authority (HCRRA) was established in 1980 for the purpose of the preservation, improvement, and implementation of local rail service in accordance with the powers and authorities granted in Laws of Minnesota Chapter 616. In the course of light rail transit development, the HCRRA purchases rail corridors (land), park/ride sites, and maintenance facilities.

The HCRRA is a blended component unit of Hennepin County, Minnesota (the County). A blended component unit, although a legally separate entity, is in substance part of the County's operations and so data from this unit is combined with financial information of the primary government and reported as a special revenue fund in Hennepin County's Comprehensive Annual Financial Report, which can be obtained from the County. Hennepin County was established in 1852 as an organized county having powers, duties, and privileges granted counties by Minnesota Statutes. The County is governed by a seven-member board of commissioners elected from districts within the County. The County Commissioners comprise the entire HCRRA board and exercise financial accountability. Employees of Hennepin County staff the projects of the HCRRA. The HCRRA has no employees.

The financial statements of the HCRRA are prepared in accordance with accounting principles generally accepted in the United States of America as established for governmental entities.

Measurement Focus, Basis of Accounting and Financial Statement Presentation

The annual financial report includes two separate sets of statements, the government-wide financial statements and the fund financial statements. The measurement focus, basis of accounting and basis of presentation differs between the government-wide financial statements and the fund financial statements. These differences, along with an explanation of the differing purposes and information provided by these separate financial statements, are described in the sections below.

As a special-purpose government engaged in a single governmental program, the government-wide statements and the fund financial statements have been combined in one statement. An adjustments column reflects the following differences between the two types of statements:

- Governmental funds report capital outlays as expenditures. In the government-wide financial statements, capital assets are reported in the Statement of Net Position at historical cost and in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.
- Certain assets are not available to pay for current-period expenditures and, therefore, are not reported as revenues in the current period fund financial statements, but instead are reported either as unearned revenue or deferred inflow of resources. Revenues in the Statement of Activities that do not provide financial resources are not reported as revenues in the fund financial statements.
- Long-term liabilities are reported in the government-wide Statement of Net Position, and related transactions are reported in the Statement of Activities. Long-term liabilities, including bonds payable, are not due and payable in the current period and, therefore, are not reported in the fund financial statements.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Measurement Focus, Basis of Accounting and Financial Statement Presentation – Continued

Government-wide Financial Statements

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the nonfiduciary activities of the government entity using the *economic resources measurement focus* and the *accrual basis of accounting*. The economic resources measurement focus results in the reporting of all inflows, outflows, and balances affecting or reflecting the HCRRA's net position. Under the accrual basis of accounting, revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which the taxes are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. The structure of the two government-wide financial statements is described in the following two paragraphs.

Statement of Net Position – This statement is designed to display the financial position of the HCRRA. The HCRRA reports all capital assets and long-term liabilities, such as long-term debt. The net position of the HCRRA is broken down into three categories: 1) net investment in capital assets; 2) restricted; and 3) unrestricted. Restrictions reported are those imposed by parties outside the HCRRA, such as creditors, grantors, contributors, laws and regulations of other governments, or imposed by law through enabling legislation. When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, and then unrestricted resources as they are needed.

Statement of Activities – This statement demonstrates the degree to which expenses of a given function are offset by program revenues. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and investment earnings (losses) not properly included among program revenues are reported as general revenues. Just as the Statement of Net Position includes all capital assets, the Statement of Activities includes depreciation expense.

Fund Financial Statements

The accounts of the HCRRA are organized on the basis of funds. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. The minimum number of funds is maintained consistent with legal and managerial requirements. All individual funds are considered major and are reported as separate columns in the fund financial statements. Governmental Funds are used to account for the HCRRA's activities. Governmental fund types use the *current financial resources measurement focus* and the *modified accrual basis of accounting*. The current financial resources measurement focus results in the reporting of only near-term (current) inflows, outflows, and balances of expendable (spendable) financial resources. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they are "measurable and available"). "Measurable" means the amount of the transaction can be determined. Property taxes are considered measurable when levied for and intergovernmental revenues are considered measurable when applicable eligibility requirements have been met. "Available" means collectible within the current period or soon enough thereafter to pay liabilities of the current period. The HCRRA considers revenues to be available if they are collected within 60 days after year-end. Changes in the fair value of investments are recognized in investment earnings (losses) at the end of each year. Expenditures are recorded when the related fund liability is incurred, except for unmatured principal and interest on general long-term debt, which is recognized when due.

Notes to the Basic Financial Statements
December 31, 2016

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Measurement Focus, Basis of Accounting and Financial Statement Presentation – Continued

Fund Financial Statements – continued

The HCRRA reports the following major governmental funds:

- The General Fund is the HCRRA's primary operating fund. It accounts for all financial resources of the general government except those required to be accounted for in another fund.
- The Debt Service Fund accounts for the servicing of general long-term debt.

Cash and Investments

The HCRRA's cash is deposited in pooled accounts of the Hennepin County Investment Pool (the Pool), an internal investment pool. Cash surpluses in these accounts are invested by the County, and investment earnings (losses), including gains and losses on sales of securities, are allocated to the HCRRA on the basis of average monthly cash and investment balances.

Investments in the Pool are stated at fair value. The fair value of investments is based on quoted market prices or inputs other than quoted prices that are observable for the investment, either directly or indirectly. State law authorizes the County to invest in the following instruments:

- U.S. government and agency issues
- Repurchase agreements
- Reverse repurchase agreements
- Certificates of deposit
- Money market funds
- General obligations of state, local, and housing finance agencies that are rated "A" or better by a national bond rating service
- Revenue obligations of any state or local government that are rated "AA" or better by a national bond rating service
- Bankers acceptances
- Commercial paper
- Futures contracts
- Guaranteed investment contracts
- Options
- Shares of certain investment companies

Capital Assets

Capital assets are reported in the government-wide financial statements at historical cost. Capital assets used in governmental activities are not financial resources and therefore net capital assets are not reported in the fund financial statements. Capital assets are depreciated or amortized in the Statement of Activities for governmental activities using the straight-line method. Buildings are depreciated over their 20-50 year estimated useful lives. In governmental funds, capital outlay and capital projects expenditures include expenditures for capital assets, as well as for items that are capital in nature but do not qualify for financial reporting as capital assets under the HCRRA's capitalization policy. The costs of maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized and are reported as expenses in the governmental activities and as expenditures in the fund financial statements. The net capital asset activity in the current period relates to depreciation that is recognized in governmental activities in the Statement of Activities.

Hennepin County Regional Railroad Authority
A Component Unit of Hennepin County, Minnesota
Notes to the Basic Financial Statements
December 31, 2016

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Long-Term Obligations

In the government-wide financial statements, long-term debt is reported as a liability. Bonds payable are reported net of the applicable bond premiums and discounts, which are deferred and amortized over the life of the bonds using the interest method. Bond issuance costs are expensed in the period issued. In the fund financial statements, the proceeds from the issuance of debt and debt premiums are reported as other financing sources, discounts on debt issuances are reported as other financing uses, and issuance costs and debt principal payments are reported as expenditures.

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to future periods and so will not be recognized as an outflow of resources (expense/expenditure) until then. The HCRRA reports a deferred charge on refunding in this manner in the government-wide statement of net position. A deferred charge on debt refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to future periods and so will not be recognized as an inflow of resources (revenue) until that time. Only the HCRRA's governmental fund unavailable revenue items are in this category. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

Fund Balance and Net Position

Fund balance. In the governmental fund financial statements, fund balance is displayed in the following classifications that are based on the spending constraints placed on the resources:

- Nonspendable fund balance – amounts that are not in a spendable form (such as prepaid items).
- Restricted fund balance – amounts constrained to specific purposes by their providers (such as grantors, bondholders, or higher levels of government) or imposed by law through enabling legislation.
- Committed fund balance – amounts constrained to specific purposes by the HCRRA Board as approved or rescinded in a Board Resolution.
- Assigned fund balance – amounts constrained by the HCRRA's intent to be used for specific purposes, but are neither restricted nor committed. The HCRRA Board has the authority to assign fund balance.
- Unassigned fund balance – amounts included in the residual classification for the General Fund that have not been restricted, committed, or assigned to specific purposes, and deficit fund balances of other funds.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, restricted fund balance is used first. When an expenditure is incurred for which unrestricted fund balance is to be used, committed amounts are used first, followed by assigned, and then unassigned.

Hennepin County Regional Railroad Authority
A Component Unit of Hennepin County, Minnesota
Notes to the Basic Financial Statements
December 31, 2016

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Fund Balance and Net Position – continued

Net position. In the government-wide financial statements, the net investment in capital assets portion is reported separately. Restricted net position is reported for amounts that are legally restricted by outside parties to be used for a specific purpose or imposed by law through enabling legislation. The unrestricted component of net position consists of the net amount of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in the determination of the other two components of net position.

Reclassifications and Use of Estimates

Certain amounts presented in the prior year data have been reclassified in order to be consistent with the current year’s presentation. The reclassifications did not impact total fund balance or net position.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, deferred outflows/inflows, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from these estimates.

2. INTEREST IN HENNEPIN COUNTY INVESTMENT POOL

The County’s Office of Budget and Finance is responsible for the treasury function of all of the County’s deposits and investments held by its funds. Cash from all funds is pooled for deposit and investment purposes. At December 31, 2016, the HCRRA comprised \$40,038,351 or 3.3% of the County’s total cash and investments. As of December 31, 2016, the County had 83% of investments invested in U.S. government and agency issues, 16% in repurchase agreements, and 1% invested in money market funds. Detailed information about the County’s deposits with financial institutions, repurchase agreements, interest rate risk, credit risk, concentration of credit risk, and custodial credit risk can be obtained directly from the County’s 2016 financial statements. Investment earnings (losses) are allocated based on average monthly cash balances. The realized and unrealized components of the 2016 HCRRA investment earnings (losses) are presented below.

	2016
Investment income and realized gains and losses	\$ 441,170
Net decrease in the fair value of investments	(271,706)
Total Investment Earnings	\$ 169,464

Hennepin County Regional Railroad Authority
A Component Unit of Hennepin County, Minnesota
Notes to the Basic Financial Statements
December 31, 2016

3. RECEIVABLES

The HCRRA is a special taxing district with the authority to levy property taxes. Property tax liens attach on the first Monday of the year following property assessment. Tax levies are certified to the county auditor five business days after December 20 of the year the property is assessed. The taxes levied are payable in the following year in two equal installments. The amounts and due dates for taxes on real property are half on or before May 15 and the balance on or before October 15. Personal property taxes are due in one installment on May 15. The amount of the allowance for uncollectible delinquent taxes is an estimate based on historical collection experience. Estimated uncollectible delinquent taxes total \$77,237 at December 31, 2016. Other miscellaneous receivables relate to building and land rental.

4. CAPITAL ASSETS

Capital asset activity for the year ended December 31, 2016 was as follows:

	Balance January 1, 2016	Additions	Deletions	Balance December 31, 2016
<i>Capital assets not being depreciated:</i>				
Land (including rail corridor)	\$ 37,397,947	\$ -	\$ -	\$ 37,397,947
<i>Capital assets being depreciated:</i>				
Buildings	1,790,681	-	-	1,790,681
Less accumulated depreciation	1,362,843	41,804	-	1,404,647
Total capital assets being depreciated, net	427,838	(41,804)	-	386,034
Capital Assets, Net	\$ 37,825,785	\$ (41,804)	\$ -	\$ 37,783,981

5. LONG-TERM OBLIGATIONS

Limited Tax Levy Debt

The HCRRA's outstanding limited tax obligation debt has remaining interest rates range from 3.0% to 4.0% with payments due through 2031. There are no significant limitations or restrictions contained in the debt indentures. Changes in long-term debt for the year ended December 31, 2016 are as follows:

Beginning Balance	\$ 34,695,000
Reductions	(1,550,000)
Ending Balance	<u>33,145,000</u>
Unamortized premium	963,208
Less amount due within one year	<u>(1,610,000)</u>
Noncurrent portion of long-term debt	<u>\$ 32,498,208</u>

Hennepin County Regional Railroad Authority
A Component Unit of Hennepin County, Minnesota
Notes to the Basic Financial Statements
December 31, 2016

5. LONG-TERM OBLIGATIONS – CONTINUED

Debt Service Requirements

	Principal	Interest	Total
2017	\$ 1,610,000	\$ 1,293,000	\$ 2,903,000
2018	1,670,000	1,244,700	2,914,700
2019	1,730,000	1,194,600	2,924,600
2020	1,810,000	1,125,400	2,935,400
2021	1,895,000	1,053,000	2,948,000
2022-2026	10,860,000	4,055,600	14,915,600
2027-2031	13,570,000	1,677,400	15,247,400
	\$ 33,145,000	\$ 11,643,700	\$ 44,788,700

6. RISK MANAGEMENT

The HCRRA is exposed to various risks of loss related to general and professional liability torts; and theft of, damage to, and destruction of assets. The HCRRA has chosen to retain the risk of torts. Commercial property insurance is purchased by the County on behalf of the HCRRA to cover the HCRRA’s buildings, money, and securities, subject to deductible amounts. Settled claims from insured losses for the County and HCRRA have not exceeded commercial insurance coverage for the past three years. Because commercial liability insurance is not purchased to provide for funding any future claims, \$100,000 has been assigned for tort liability risk retention (see Note 9).

7. RESTRICTED NET POSITION

The use of restricted net position is subject to constraints that are externally imposed by creditors, grantors, contributors, laws, or regulations. Restrictions indicate that the net position may only be used for a specific purpose that is narrower than the purpose of the reporting unit. Restricted net position is reduced by liabilities related to those assets. Restricted net position that is reported in the Statement of Net Position differs from restricted fund balance shown in the Governmental Funds Balance Sheet. Government-wide restricted net position at December 31, 2016 totals \$189,324, relating to a restriction for debt service.

Hennepin County Regional Railroad Authority
A Component Unit of Hennepin County, Minnesota
Notes to the Basic Financial Statements
December 31, 2016

8. COMMITMENTS

The historic capital funding practice for large transit projects in the region has been for the counties (or regional railroad authorities) in which the projects are located to provide 10% of the capital costs, the state to provide 10% of the capital costs, the Counties Transit Improvement Board (CTIB) to provide 30% of the capital costs, and the federal government, through its Capital Investment Grants program administered by the Federal Transit Administration, to provide 50% of the capital costs. CTIB was formed in 2008 as a joint powers agreement with the counties of Anoka, Dakota, Ramsey and Washington to make grants for transit purposes, and each of the member counties imposes a .25% sales and use tax, as well as a \$20 per vehicle motor vehicle excise tax (together, the Transit Sales Tax).

The HCRRA has committed to expend up to:

- \$53,134,401 for the project development continuance and engineering phases of the Southwest Corridor light rail transit project. The HCRRA's total commitment to this project is for 10% of the total capital cost up to \$185,800,000,
- \$18,400,000 for the project development phase and \$10,340,000 for the project development continuance phase of the Bottineau light rail transit project. The HCRRA's total commitment to this project is for 10% of the capital cost in an amount not to exceed \$149,600,000, and
- \$12,790,000 to Orange Line bus rapid transit project capital costs.

Commitments will be paid from future revenues.

9. GOVERNMENTAL FUND BALANCE CLASSIFICATIONS

Governmental fund balance classifications and the constraints imposed on the uses of those resources at December 31, 2016 consisted of \$297,074 restricted for debt service, \$100,000 assigned for tort liability risk retention, and \$38,947,444 assigned for specific regional rail projects. The classifications are described in greater detail in the Fund Balance and Net Position section of Note 1.

10. SUBSEQUENT EVENTS

In May 2017, CTIB approved the voluntary dissolution of the joint powers agreement discussed above in Note 8. In June 2017, the County Board approved termination of the joint powers agreement and imposition of a Transportation Sales Tax at the rate of .5%, as well as a replacement \$20 per vehicle excise tax, effective October 1, 2017, contingent upon the termination of CTIB as provided in the CTIB Resolution, including termination of the transit taxes described in Note 8 effective September 30, 2017. The new Transportation Sales Tax may be used for a broader array of transportation purposes, such as roads and bridges. With the dissolution of CTIB, while the HCRRA commitments for 10% of projects' capital costs are unchanged, project support from partners shifts from the CTIB/Transit Sales Tax model to County/Transportation Sales Tax support. Management has evaluated subsequent events to July 17, 2017, the date the financial statements were available to be issued.

Legal Compliance – Budgets

Budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America. Annual appropriated budgets are adopted for the general and debt service funds based on the modified accrual basis of accounting. These annual appropriations lapse at year-end to the extent that they have not been expended or encumbered.

Project-length financial plans are adopted for certain projects. An annual project budget is adopted that reflects the annual appropriation for the project-length plan, which does not lapse until the project is completed. Total actual project expenditures may not exceed the total appropriated budget. The remaining total budget for these projects at year-end is shown below.

Year	Appropriated Budget	Actual Expenditures	Remaining Budget
2015	\$ 31,800,000	\$ 18,405,391	\$ 13,394,609
2016	50,100,000	14,009,691	36,090,309
	\$ 81,900,000	\$ 32,415,082	\$ 49,484,918

The HCRRA Board must adopt a proposed maximum property tax levy by September 30. The Board holds public hearings, makes modifications to the budget, and legally enacts the budget by passage of a resolution no later than December 31.

Any changes in the budget must be within the revenues and reserves estimated or the revenue estimates must be changed by a vote of the Board. Expenditures may not legally exceed budgeted appropriations.

¹ Property estimated market value is for the assessment year indicated. Applicable taxes are collectible in the subsequent year.

² The tax rate is applied to tax capacity, which is determined by multiplying the taxable market value of each property by the statutory class rates for the specific use(s) on the property.

¹ HCRRA debt has historically consisted solely of limited tax general obligation bonds, which are by definition secured in whole or part by the authority to levy taxes on real estate. Per M.S. 475.51, the net limited tax general obligation debt is determined by deducting from the total limited tax general obligation debt the cash available for servicing the debt and debt intended to be financed primarily by means other than a real estate tax levy.

² See Table 5 for taxable estimated market value data.

³ See Table 14 for personal income and population data. These ratios are calculated using personal income and population for the prior calendar year.

⁴ Data not available at the time of publication.

⁵ Due to the implementation of GASB 65, deferred charges on refundings are not reported with outstanding debt in 2012 or later. Due to limited availability of data, deferred charges on refundings remain included with the applicable debt prior to 2012.

¹ Debt that is secured in whole or part by the authority to levy taxes on real estate. Per M.S. 475.51, net general obligation debt is determined by deducting from the total general obligation debt the cash available for servicing the debt and debt that is intended to be financed primarily by means other than a real estate tax levy. Debt premiums and deferred amounts on refundings are not included in the amounts shown.

² The percentages reflect the portion of the general obligation debt secured by taxable real estate located within the County.

³ Includes Metropolitan Council Transit Operations debt.
